

POLELED

INCREASE YOUR VISIBILITY

POLELED FLAG LIGHTING GUIDE

U.S. flags and all other country flags must be illuminated when flown at night. Visibility is dependent on the relative position of the luminaire, flag and viewer, as well as the position on the flag pole. These rules of thumb should result in a satisfactory installation, regardless of the many variables involved.

1. With the PoleLed luminaire you ensure that the flag is adequately illuminated, regardless of wind direction. You only need one luminaire.

2. In order to get a result at your satisfaction we advise you to mount the illuminator on the proper height as shown in the drawing

SPECIFICATIONS

POLE HEIGHT	FLAG SIZE	MOUNTING HEIGHT
20'	3' x 5'	8.5'
30'	5' x 8'	13'
40'	6' x 10'	20'
50'	8' x 12'	22.5'
